

DFW FOAM SUMMIT

at the Fire Training Research Center

FIREFIGHTING FOAM A CRISIS OR A CROSSROADS?

- A holistic approach to balancing fire performance and environmental consequences.
- Large Scale C6 / F3 Fire Extinguishment Tests

DFW Fire Training Research Center**

October 16-18, 2018

DFW FOAM SUMMIT

A CORE CHANGE FOR THE INDUSTRY.

FIREFIGHTING FOAM SUMMIT & FIRE EXTINGUISHMENT TESTS

Tuesday, October 16, 2018

7:30 - 8:30	Breakfast/Registration
8:30 - 9:15	Why we are at a crossroads for the future of foam
9:15 - 10:00	Evolution of environmental concerns with firefighting foam
10:00 - 10:30	Break
10:30 - 10:50	International Trends in regulations and controls for firefighting foam
10:50 - 11:10	Regulatory Trends, USA examples
11:10 - 11:45	Question and answer session
11:45 - 12:45	Lunch
12:45 - 13:45	Current program of large scale testing of new generation firefighting foams
13:45 - 14:15	Aviation related research and testing in new generation foam application
14:15 - 15:45	Break
14:45 - 15:45	Working with new controls - case study
16:00 - 17:00	Demonstration of fluorine free foam

PRESENTED BY:

Wednesday, October 17, 2018

8:00 - 8:30	Breakfast/Registration
8:30 - 9:15	Cradle to grave foam assurance protocol
9:15 - 10:00	Aviation related issues
10:00 - 10:30	Break
10:30 - 11:30	Analytical methods for determining safety of foam
11:30 - 11:45	Question and answer session
11:45 - 12:45	Lunch
12:45 - 13:30	Use of surrogate liquids in foam system assurance
13:30 - 14:15	Foam solution containment - ensuring impervious bunding
14:15 - 14:45	Break
14:45 - 15:30	Current program of large scale testing of new generation firefighting foams
15:30 - 16:15	PERF Working Group - Environmental aspects of fluorine free foams
16:15 - 17:00	Question and answer session

Thursday, October 18, 2018

8:00 - 8:30	Breakfast/Registration
8:30 - 9:15	Changeover issues on fire vehicles
9:15 - 10:00	Legacy and incident clean up case history
10:00 - 10:30	Break
10:30 - 10:50	Case studies and emerging technologies for treatment and clean up
10:50 - 11:10	Challenges and solutions for effective foam change outs
11:10 - 11:45	Question and answer session
11:45 - 12:45	Lunch
12:45 - 13:30	ACAF work with compressed air foam
13:30 - 14:15	Supplier Demo
14:15 - 14:45	Break
14:45 - 15:30	Supplier Demo
16:00 - 17:00	Demonstration of AFFF foam
